## 1.1 Disclosures of Interest (contd)

- 2 That Council request that the Chief Executive Officer seek the Minister's approval under s315(3) of the Water Management Act 2000 for the service charges in accordance with the above determination.**

## **Report purpose**

To adopt three amendments to Water and Sewerage fees and charges adopted by Council on 25 May 2021.

## **Executive Summary**

This report seeks to adopt amendments to three miscellaneous fees and charges for the 2021-2022 charging year in line with IPART three-year price determination for the period 1 July 2019 to 30 June 2022.

The amendments are to correct minor typographical errors and will have no impact on the annual service charges for a typical residential house customer.

Council's Water, Sewerage and Stormwater Drainage fees and charges are also subject to approval by the Minister for Water, Property and Housing under s. 315(3) of the Water Management Act 2000, subsequent to adoption by Council.

## **Background**

Water, Sewer and Stormwater Drainage fees and charges for 2021-2022 were adopted by Council at its Ordinary meeting held on 25 May 2021, as follows:

**3.1 Amendment to Water and Sewerage fees and charges 2021-2022  
(contd)**

---

163/21 Resolved:

- 1 *That Council approve the Water, Sewerage and Stormwater Drainage Fees and Charges set out in Attachment 1.*
- 2 *That Council determine, for the purposes of s.315(1)(a) the Water Management Act 2000, that the amount of revenue it proposes to raise by way of service charges including the usage of the service is \$164,056,413. This is calculated based on the Independent Pricing and Regulatory Tribunal (IPART's) Final Determination dated 24 May 2019 and IPART Clarification Notice No. 1 of 2021 which was published in the NSW Government Gazette on 30 April 2021.*
- 3 *That Council determine, for the purpose of s.315(1)(b) of the Water Management Act 2000, that land is to be classified for the purpose of levying services charges according to the following factors:*
  - a *the purpose for which the land is actually being used,*
  - b *the intensity with which the land is being used for that purpose,*
  - c *the purposes for which the land is capable of being used,*
  - d *the nature and extent of the water or sewerage services connected to the land.*
- 4 *That Council determine, for the purposes of s.315(1)(c) of the Water Management Act 2000 that services charges be levied on the following bases, as applicable to each charge:*
  - a *the availability of the service*
    - i *the classification of land*
    - ii *the size of the water meter registering supply*
    - iii *the cost of providing the service (i.e. sewage discharge factor)*
  - b *the usage of the service*
    - i *the volume of water supplied (as measured or estimated by Council)*
    - ii *the degree of use (i.e. sewage discharge factor)*
- 5 *That Council determine, for the purposes of s.315(1)(d) of the Water Management Act 2000, that the service charges be levied in accordance with attachment 1 to the report.*
- 6 *That Council request that the Chief Executive Officer seek the Minister's approval under s315(3) of the Water Management Act 2000 for the service charges in accordance with the above determinations.*

### 3.1 Amendment to Water and Sewerage fees and charges 2021-2022 (contd)

---

The adopted fees and charges however contained three typographical errors as listed in the table below. This report seeks to amend those fees and charges for the 2021-2022 charging year.

Miscellaneous Fee or Charge	Amount adopted by Council \$	Maximum Charge per IPART's Determination \$
<b>Table 6.5:</b> Category 3 High Volume Trade Waste Discharge Service Excess Mass Charges

<b>Table 7.1:</b> Miscellaneous Customer Services

10. Connection of Water Service o) Water service connection long metered service (80 mm)	13,992.14	13,922.14

#### Current Status

This report seeks to rectify minor typographical errors in three miscellaneous fees and charges for the 2021-2022 charging year that commences on 1 July 2021. The amendments will have no impact on the annual service charges for a typical residential house customer.

Attachment 1 contains the full schedule of fees and charges for the 2021-2022 charging year and includes the correction of the three miscellaneous fees.

#### Consultation

Council's Water, Sewerage and Stormwater Drainage fees and charges for the 2021-2022 charging year are based on IPART's Final Determination issued on 24 May 2019 and Clarification Notice No.1 of 2021 published in the NSW Government Gazette in April 2021.

#### Financial Considerations

At its meeting held 19 October 2020, Council resolved the following:

- 1108/20 *That any motions put before Council for the remainder of this term of Council that have financial implications require the Chief Executive Officer to provide a report on how those additional costs will be met.*

### **3.1 Amendment to Water and Sewerage fees and charges 2021-2022 (contd)**

---

The following statement is provided in response to this resolution of Council.

The estimated revenue to be raised from Water, Sewer and Stormwater Drainage Service Charges based on the IPART Determinations for 2021-2022 is \$164,056,413. The amendment to the three fees in this report will have no impact on the estimated revenue as the estimated revenue is based on service charges and the three amendments are to Miscellaneous Charges that do not form part of the calculation and are a minor revenue source.

#### **Link to Community Strategic Plan**

Theme 4: Responsible

#### **Goal G: Good governance and great partnerships**

R-G4: Serve the community by providing great customer experience, value for money and quality services.

#### **Critical Dates or Timeframes**

Under s.315 of the *Water Management Act 2000* Council is required to adopt the pricing at least one month prior to imposing the charges. Accordingly, in order for the charges within this report to be implemented, Council needs to make the relevant determinations by 1 June 2021. If these determinations are made, Council must then seek the approval of the Minister under s.315(3)(a) of the *Water Management Act 2000* and publish in the NSW Government Gazette prior to 1 July 2021.

1  2021-2022 Water, Sewerage and Stormwater Drainage Charges D14660635

### Water, Sewerage and Stormwater Drainage Charges for 2021-22

Central Coast Council's water, sewerage and stormwater drainage services and a number of its associated ancillary services are declared monopoly services under s. 4 of the *Independent Pricing and Regulatory Tribunal Act 1992*.

Council's charges for water, sewerage and stormwater drainage services and a number of its associated ancillary services must therefore be set in accordance with any Independent Pricing and Regulatory Tribunal (IPART) determined methodologies and/or maximum prices and are subject to approval by the relevant Minister.

#### 1. Water supply service charges

- (a) The water supply service charge applicable to a Property (other than an Unmetered Property or Unconnected Property) is, for each Meter that services that Property, the water supply service charge in Table 1.1 for the applicable Meter size or Property type and applicable Period.
- (b) The water supply service charge applicable to an Unmetered Property or an Unconnected Property is the water supply service charge in Table 1.1 for that Property type and applicable Period.
- (c) In reference to 1(a) (see above), the following categories of Property are deemed to have a single 20mm Meter:
  - (1) each Residential Property; and
  - (2) Each Non-Residential Property within a Mixed Multi-Premises that is serviced by a Common Meter.
- (d) Where a Property:
  - (1) is serviced by a Common Meter;
  - (2) is not deemed to have a single 20mm Meter under 1(c) (see above)

## 3. Sewerage Charges

- (a) The sewerage service charge applicable to a Property in both Former Gosford and Wyong Areas in a Period is, for each Meter that services the Property or for an Unconnected Property or Unmetered Property, the amount calculated as follows:

$$S = M \times D$$

Where;

*S* means the sewerage service charge applicable to a Property in the period;

*M* means;

- (1) in the case of a Property in the Former Gosford Area, the sewerage service charge in Table 3.1 for the applicable Meter size or Property type and applicable period; and
- (2) in the case of a Property in the Former Wyong Area, the sewerage service charge in Table 3.2 for the applicable Meter size or Property type and applicable period; and

*D* means the applicable Sewerage Discharge Factor.

**[Note: The Sewerage Discharge Factor for all Residential Properties that are connected to the sewerage system is 75%]**

- (b) For the purposes of the sewerage service charge, the following categories of Property (other than an Unconnected Property or Unmetered Property) are deemed to have a single 20 mm Meter:
- (1) Each Residential Property; and
  - (2) Each Non-Residential Property within a Mixed Multi-Premises that is serviced by a Common Meter.
- (c) Where a Property:
- (1) is serviced by a Common Meter; and
  - (2) is not deemed to have a 20mm Meter under 3(b) (see above),

**Table 3.1:** Sewerage service charge in the Former Gosford Area:

80mm	8,880.54
100mm	13,875.83
Other Meter Sizes	$\frac{(\text{Meter size in mm})^2 \times \text{sewerage access charge for a 20mm Meter for the applicable period}}{400}$

**Table 3.2:** Sewerage service charge in the Former Wyong Area:

<b>Basis of Charge Meter size or Property type</b>	<b>Maximum charge per IPART's Determination \$</b>
Unconnected Property	NIL
Unmetered Property	506.50
20mm	506.50
25mm	673.51
32mm	1,103.48
40mm	1,724.18
50mm	2,694.03
80mm	6,896.73
100mm	10,776.15
Other Meter Sizes	$\frac{(\text{Meter size in mm})^2 \times \text{sewerage access charge for a 25mm Meter for the applicable period}}{625}$

**Note:** The unadjusted sewerage service charge for other Meter sizes in the Former Wyong Area is calculated on the basis of a 25mm Meter (rather than a 20mm Meter).

#### 4. Sewerage usage charge

- (a) The sewerage usage charge applicable to a Property in a Period is the amount calculated as follows:

$$S = V \times C$$

Where:

S means the sewerage usage charge applicable to a Property in a Period;

V means the Volume (in kilolitres) deemed to be discharged from the Property into the sewerage system as calculated under this clause; and

C means the charge per kilolitre specified in Table 4.1 for the applicable Period.

- (b) For the purposes of clause 4(a), the volume discharged from a Property into the sewerage system in a Period is either:
- (1) in the case of a Property that is not serviced by a Sewerage Meter at any time during the Period—the volume deemed to have been discharged from the Property into the sewerage system under clause 4(c); or
  - (2) in the case of a Property serviced by a Sewerage Meter for any part of the Period:
    - (A) the volume discharged from the Property into the sewerage system as measured by the Sewerage Meter; and
    - (B) if applicable, any volume deemed to have been discharged under clause 4(d).
- (c) For the purpose of the sewerage usage charge, the volume deemed to have been discharged from a Property into the sewerage system is:
- (1) In the case of a Residential Property within:
    - (C) within a Mixed Multi-Premises: 80/365 kilolitres per day that period;
    - (D) not within a Mixed Multi-Premises: 125/365 kilolitres per day that period;
  - (2) In the case of a Non-Residential Property:
    - (A) within a Mixed Multi-Premises: 125/365 kilolitres per day that period;
    - (B) not within a Mixed Multi-Premises: – the volume of water supplied to that Property multiplied by the Sewerage Discharge Factor; and
  - (3) In the case of an Unconnected Property – zero kilolitres.
- (d) For a Property that was serviced by a Sewerage Meter for only part of a Period, the volume deemed to have been discharged is the volume that would have been calculated for that Property under clause 4(c) pro-rated for the number of days in the Period during which the Property was not serviced by a Sewerage Meter.
